

Dark Blue = 2x material
 Green = plywood & lauan
 Black = Schedule 40 pipe, kee klamp fittings

MAKE 2

Laminate lauan and plywood together, staggering seams. Attach bottom fittings with through bolts, either flat head or sinking the hex heads. Attach top fittings with 1-1/2" x 3/8" lag bolts. You will need to chase the fitting holes to fit the 3/8" lags.

Apply a 1/4" roundover to the top edges of the top boards, in addition to the 2" radius on the corners.

Paint the bottom board grass green, and coat the sitting boards with an outdoor finish.
